

Dear Mr. Alan Wright,

Thank you for the items you sent to our classroom. The hats, shirts, and safety glasses were a big hit with the students. It gave me an opportunity to tell the students about your program and hopefully it interested them in exploring what you have to offer. Also maybe you will get some good advertising from them wearing your products around the community. I appreciate the tour of your facility back in the summer and the lunch you provided us. I believe you have a good program for students looking to enter the plumbing field.

Thanks again,

Bradley Lenderman
